NICER CONSORTIUM

Founded in 2016, the North American Immuno-Hematology Clinical Education & Research Consortium, encompasses all disorders within immuno-hematology including those with complex immune cytopenias, bone marrow failure, lymphoproliferative and histiocytic disorders, immune deficiencies, autoinflammatory disorders and immune dysregulatory syndromes along with emerging phenotypes of a similar nature.

NICER is committed to being purposefully inclusive of pediatric and adult providers from multiple disciplines including, allergy/immunology, genetics, hematology/oncology, hematopoietic stem cell transplant, rheumatology, infectious disease, gastroenterology, endocrinology, etc. to enrich the educational environment and research goals of the consortium.

- Sanford Health
- Baylor College of Medicine
- Washington University of St. Louis
- UPMC
- Children's Hospital of Pittsburgh
- UT Southwestern
- University of Arkansas
- All Children's Research Institute
- University of Florida

Letter from our Executive Director

Dear Colleagues,

We warmly welcome you to celebrate the 10th Anniversary of the NICER Consortium this coming fall. Join us in Ann Arbor for the 2026 NICER Symposium, themed "The Only and Only NICER: Cytokines, Connections and Progress Towards Cures" as we reflect on the then and now of NICER alongside explorations of connections (via cytokines or personal!) that have nudged the field of immuno-hematology forward to embrace new technologies and targeted therapies.

Continuing our tradition from previous years, the 2026 symposium will feature popular sessions such as the "Stump the Professor", "Speed Networking" and "Pro-Con Debates," along with new interactive workshops. These will showcase the multidisciplinary nature of immuno-hematologic disorders, highlighting both recent advancements and existing knowledge gaps.

Best regards,

Kelly Walkovich, MD

Each year, the symposium's theme is inspired by the title of a classic children's book. This year's theme is centered around "The One and Only Ivan," authored by Katherine Applegate.

the Progress Towards Cures**

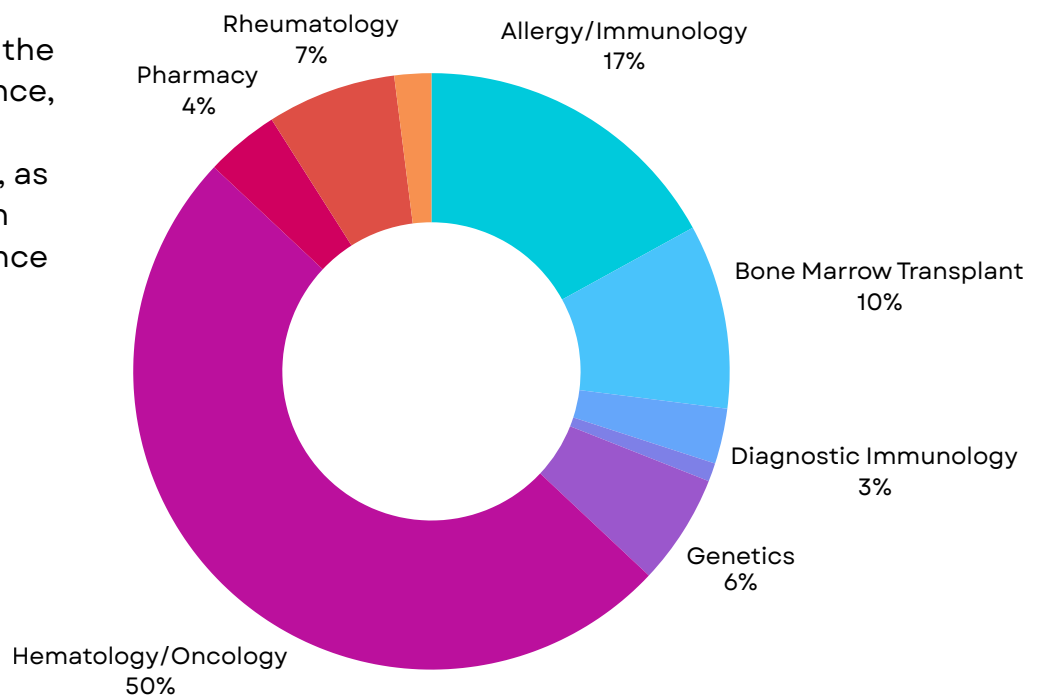

Exhibit at NICER

The 2026 NICER Annual Symposium brings together clinicians and researchers from various fields in an interactive setting focused on presenting and discussing a multidisciplinary approach to the management, treatment, and diagnosis of rare diseases.

At NICER, we strive to cultivate a collaborative atmosphere, acknowledging the vital contributions of our industry partners in furthering our shared mission.

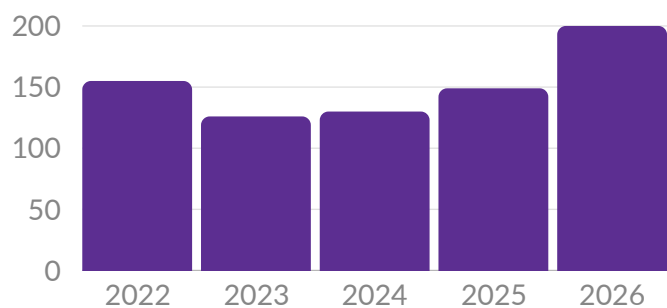

Primary Specialties

The image represents the physicians in attendance, along with their respective specialties, as illustrated in the graph derived from attendance data for 2025.

Previous Years Attendance

The overall figures encompass both in-person and virtual participants for previous years and projection for 2026. It is important to note that attendance in 2022 was exclusively virtual.

Supporter Benefits

Platinum \$30,000	Gold \$20,000	Silver \$10,000	Bronze \$5,000
<ul style="list-style-type: none"> • Complimentary Exhibit Booth • Pre-registration for Speed Networking event • Invitation to Wednesday's Industry Panel • Website Advertisement • Email Advertisement • 4 complimentary registrations 	<ul style="list-style-type: none"> • Complimentary Exhibit Booth • Pre-registration for Speed Networking event • Invitation to Wednesday's Industry Panel • 3 complimentary registrations 	<ul style="list-style-type: none"> • Complimentary Exhibit Booth • Pre-registration for Speed Networking event • 2 complimentary registrations 	<ul style="list-style-type: none"> • Complimentary Exhibit Booth • 1 complimentary registration

A supporter level must be secured to participate in additional opportunities below.

Additional Opportunities

Gratitude Reception \$10,000

1 Opportunity

WEDNESDAY EVENING. SPONSORSHIP INCLUDES RECOGNITION DURING EVENT, WEBSITE AND PRE-EVENT EMAIL.

Product Theatre \$15,000

1 Opportunity Available

SESSION MUST BE APPROVED BY THE SYMPOSIUM PLANNING COMMITTEE AND CAN NOT OFFER CME FOR ANY ATTENDEES. THESE SESSIONS WILL BE AVAILABLE TO BOTH THE IN-PERSON AND VIRTUAL ATTENDEES.
